**Subject:** Microsoft Settlement

To Whom it may concern:

I am strongly opposed to the current settlement agreement in the Microsoft anti-trust case. I am using this email to voice that opposition under the requirements of the Tunney Act. I strongly believe, as a member of the IT industry that deals with Microsoft products and the effect of their practices each day, that the most effective solution to this case and the underlying problem involves forcing Microsoft to extend the same development information to all companies as it currently does to its internal application development teams.

Sincerely,
